

Team Contribution Report

Project Title: Chat Module and Events System

Team lead: Alexandra

Technical lead: Paul

Members: Andrada | Cezar | David | Darius | Denisa | Felician | Maya | Nicoleta | Raul | Robert | Teodora

Assignment Requirements:

1. Team Building **(TB)**
2. New GitHub Repository **(GR)**
3. Coding Style Ruleset **(CSR)**
4. Merge of the Applications **(MA)**
5. Entity Framework Switch **(EFS)**
6. Application Deployment **(AD)**

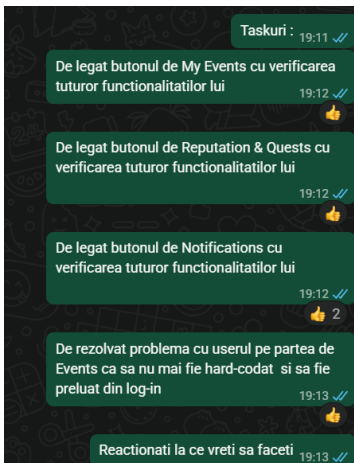

Honorable mention : DEBUGGING -> DBG

Task Distribution per Member:

Team Member	Requirement	Task(s)
Alexandra	TB	Participate at the team building
	GR	Create the new GitHub repository and combine the two projects (run can be done, but separately)
	MA	Switch the hardcoded user from the Events app so that it takes the login information from the Chat app Solve minor inconveniences (help members with different errors while cloning and making the project work)
	EFS	Create the AppDbContext file Create all configuration files Changed the UserRepo Changed the EventRepo Change QuestRepo Change QuestMemoryRepo Change CategoryRepo
	EFS - DBG	A lot... I'm not gonna...
	AD	Deployment of the application
	AD - DBG	Debugging of the deployment of the application (I'm so done...)
Andrada	TB	Participate at the team building
	MA	Relink the Notifications view on the merged app Functionality verification for that feature

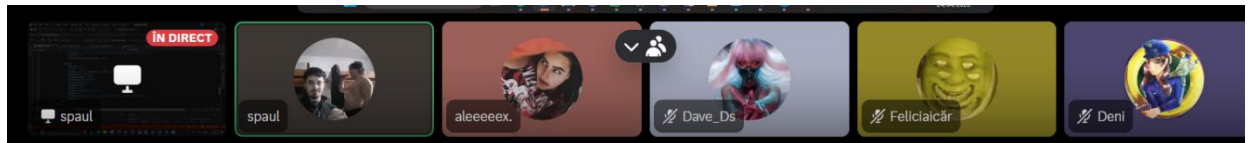

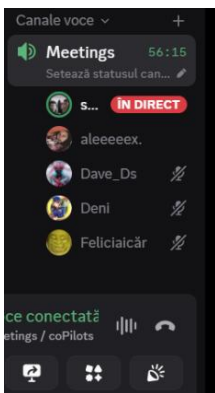

Cezar	TB	Participate at the team building
	EFS	Create missing class MemoryLike
David	MA	Relink the My Events view on the merged app Functionality verification for the feature
	EFS - DBG	Event Creation Problem
	AD	Help at the application deployment
	CSR	Checked that the rulset was applied in all the application
Darius	TB	Participate at the team building
	EFS	Change FriendRepo Change ConversationRepo Change MessageRepo
Denisa	TB	Participate at the team building
	MA	Relink the Reputation & Quests views on the merged app Functionality verification for that feature
Felician	EFS	Change AttendedEventRepo Change AnnouncementRepo Change MemoryRepo
	EFS - DBG	Achievements Seed Problem
Maya	TB	Participate at the team building
	MA	Relink the Notifications view on the merged app Functionality verification for that feature
Nicoleta	TB	Participate at the team building
	EFS	Create missing class Discussion
Paul	TB	Participate at the team building
	CSR	Create the Coding Style Ruleset document for the others to follow
	MA	Link the two projects such that the sidebar contains both projects' features Relink the Events view on the merged app Functionality verification for that feature
	AD	Created the projects for the deployment
	EFS - DBG	Quests button problem
Raul	TB	Participate at the team building
	EFS	Change Discussion Repo Change Reputation Repo Change Achievemnet Repo
Robert	TB	Participate at the team building
	EFS	Change Notification Repo Change EventStatistics Repo Change ParticipantRepo
Teodora	TB	Participate at the team building
	EFS	Create missing class UserReputationScore

Task Distribution proves: WhatsApp Messages + Trello board

Task Completion proves: GitHub branches
